The Garden of Swords

No shavings nor bits of clean wood nor fresh debris of a busy shop now lay about the floor; but on the tables lay His tools, as polished as though they had been used just that afternoon, waiting, hammer and saw, awl and plane, for the hands that had once gripped them so efficiently and now would never touch them .

Yours was the finest education money could buy, at only the best prep schools. Few workers in history have been able to help their fellows as much, and that is a blessing to all of us. En torno a ella se pueden hacer cuatro consideraciones. The concept of mechanical interlocking is obviously dependent on penetration of the adhesive phase beyond the external wood surface. Von: Matthias Keller.
